EMPLOYMENT

Liberty Mutual, Boston, MA September 2018-Present
Senior Software Engineer

- Selected for Liberty Mutual's TechStart Leadership Development Program
- Delivered seven zero-defect annual compensation cycles: 320,000+ statements across 26 countries, while resolving data integrity defects upstream from our own applications
- Built reusable GitHub Copilot agents for UI migration, testing, and PR readiness, saving 20–30 minutes per PR and recovering 4–8 engineering hours monthly
- Modernized compensation workflows and data systems, including a bulk-override capability that replaced 4,200 manual edits with secure, auditable in-app operations
- Led security and resilience work for sensitive HR systems, including threat modeling, vulnerability remediation, data masking, transactional failure handling, and CI/CD modernization
- Placed third in two consecutive company-wide hackathons judged by C-suite leadership
- Mentored engineers and enabled contractors through standards, tooling, and onboarding

Cigna Inc., Bloomfield, CT May-August 2017
Technical Analyst Intern

- Contributed to a team which rewrote a company website from AngularJS to Angular 2
- Designed a new user interface for customer facing website with Sketch
- Participated in an intern capstone project team by building the entire front end of a web application

MakerBot Inc., Greenwich, CT Seasonal: June 2014-January 2015
Retail Operator (Summer 2014-January 2015), Intern (May-June 2014)

- Taught classes to customers on software and hardware to increase understanding of 3-D printing and modeling
- Held community events to increase awareness of 3D printing and uses for schools, businesses, and homes
- Managed product sales and maintenance of store equipment to keep inventory current

EDUCATION

Quinnipiac University, School of Engineering, Hamden, CT May 2018
Bachelor of Science in Software Engineering, Magna Cum Laude

- Honors Program, Dean's List, Mathematics Minor
- Recipient of QU Trustee's Award and Travelers Scholarship Award

Queen Mary University of London, London, England January 2017- June 2017

- Study Abroad- Software Engineering
